

What's New

ADVANCE
POWERPACK
for Autodesk® Vault
2021

Welcome to GRAITEC PowerPack for Vault 2021

GRAITEC is very pleased to present the latest version of Advance PowerPack for Vault 2021, part of the Graitec Advance Suite.

This document contains the description of new options and improvements for PowerPack for Vault.

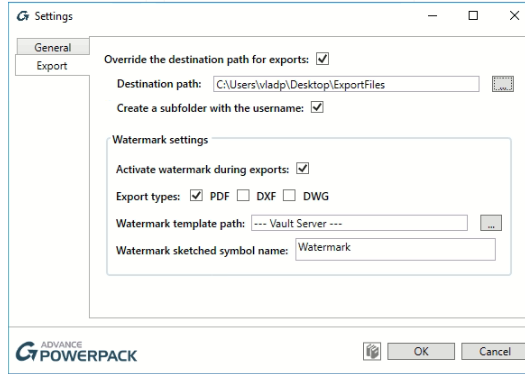

Compliance with Vault® 2020 and Vault® 2021

Advance PowerPack for Vault® 2021 is fully compliant with both Autodesk Vault® 2020 and Autodesk Vault® 2021.

New Options in Advance PowerPack for Autodesk Vault® 2021

Global Settings

Users now have possibility to opt for the creation of a specific subfolder with the Username of the person who created the job; both for single and structural exports.

Export Structure settings

Users now have a more flexible option for naming the output files for the structural export job, by creating a custom formula for the name of the files.
