Quick Install Guide: PowerPack for Vault

Important Note: If you are upgrading the License, please make sure that you return the license before installing the new one. The powerpacks will run on the current version and one year back, so if you have 2023, it will run on Vault 2022 and Vault 2023. If you need an older version of the powerpack you can download it from the Graitec advantage site.

Quick Steps

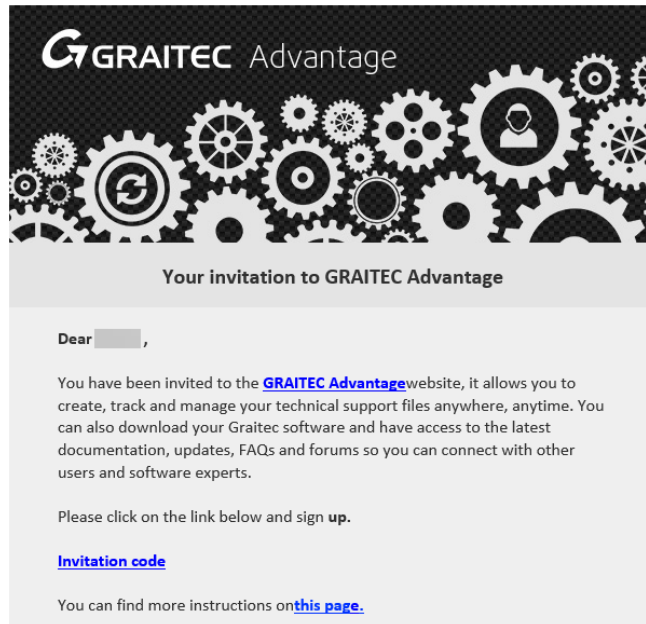

- Register (if not already done)
To get your login information, so you can download the Powerpack
- Download your powerpack from the Graitec Advantage site
- Install the Powerpack
- Activate the Powerpack
- Start using the Powerpack!

1.1 Registering

It doesn't matter if you are requesting a trial or activating the seat you will need to register if you don't already have an account.

You should receive an **Invitation** email from Graitec with a link that includes an **Invitation code**, if you haven't received an invitation email from Graitec please email info.usa@graitec.com requesting access to Graitec Advantage, once your details have been confirmed you will receive an email invitation.

When you click the **Invitation Code** link in the email you will be taken to a Redeem Invitation page where the Invitation Code should already be populated, click the **Register** button, then choose a Password and click **Register** again.

1.2 Downloading

To start with head to: <https://advantage.graitec.com/> it should detect your local language from windows and adjust what you see. Once you're on the Graitec advantage page you can sign in. You will use the sign-in information that you set up when you registered.

The trial site is a little bit confusing; you need to download the powerpack you want, Powerpack for Vault XXXX Setup (where XXXX is the same as the Vault – 2022, 2023, etc.), and the online setup advance XXXX (Where XXXX matches the version – 2022, 2023, etc.)

You can also download the full package, Advance XXXX (DVD ISO) [where XXXX is the version – 2022, 2023, etc.].

1.3 Installation

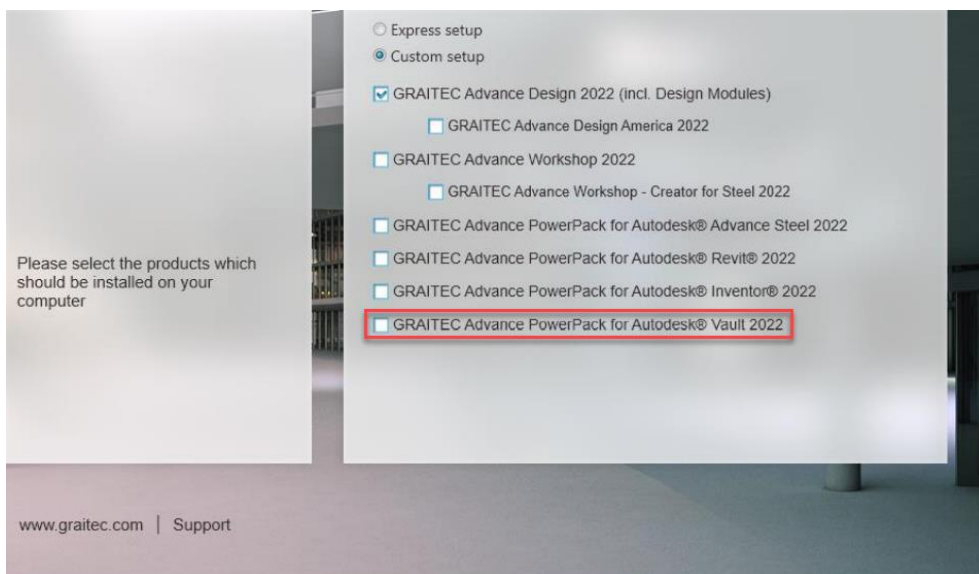

1. Select the installation language and click **Install products**.

Starting the installation

2. On the next screen, select the software to install.

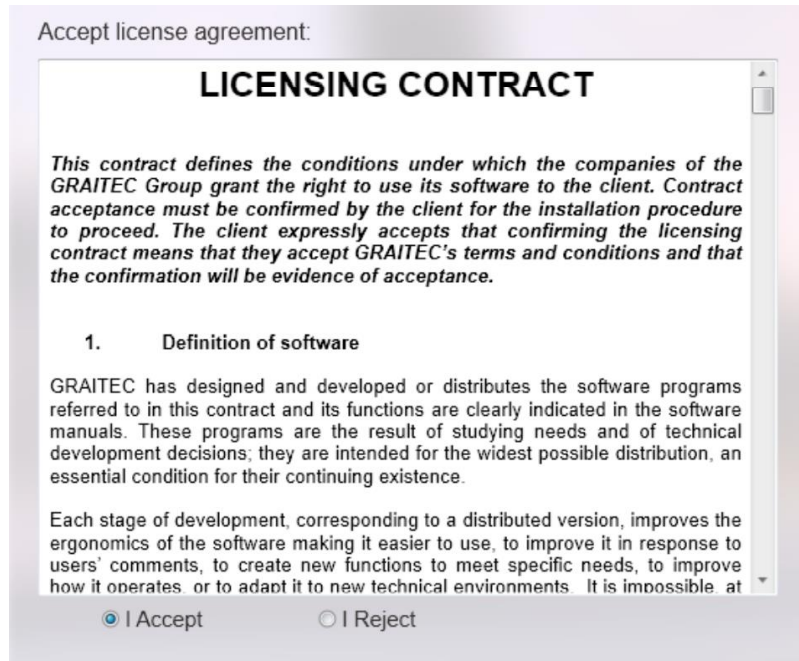

- To install all Advance software, select **Express setup**.
- To avoid installing all Advance software, select **Custom setup** then select the software to install

Selecting the product

In this case pick “Graitec Advanced Powerpack for Autodesk Vault”, then click **Next**.

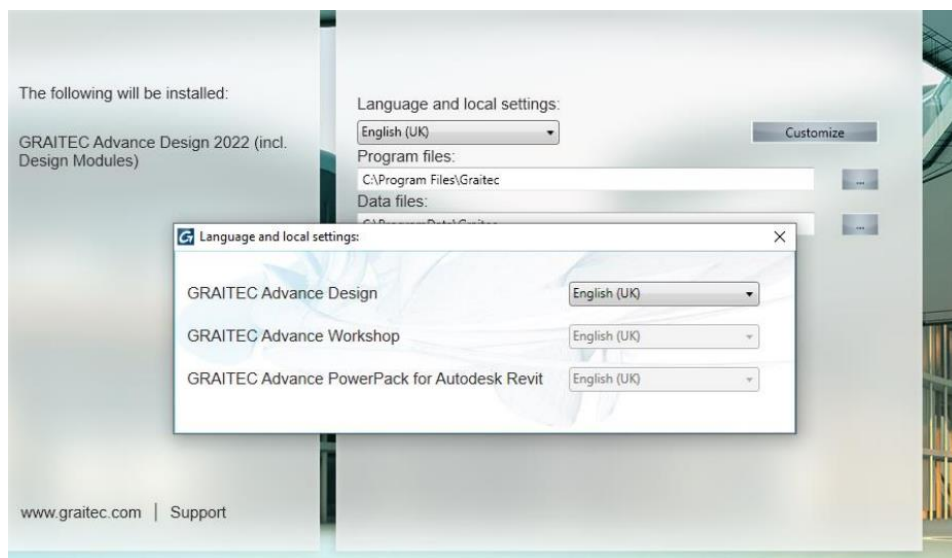

Read the license agreement. Click **I accept** to agree to the specified terms and click **Next**.

License agreement

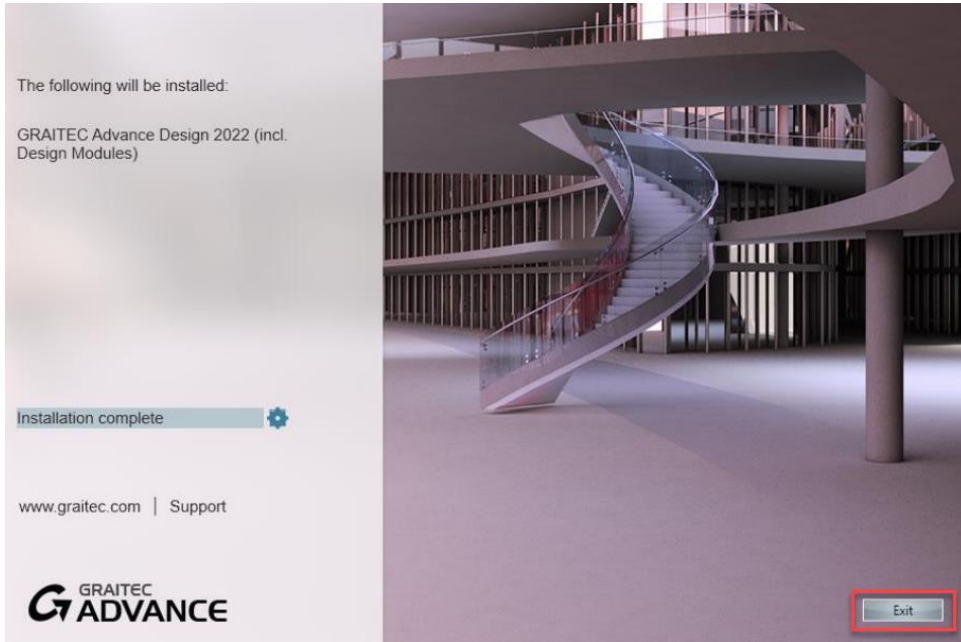

3. On the next screen, select the interface language and the installation path.

- To select the interface language, click **Customize**. In the next dialog box, select the interface language and the local settings for each installed application and click “**OK**”.
- To change the destination path, click “...”. In the next dialog box, enter a path or select a different folder in which to install Advance and click “**OK**”.

Selecting the interface language

4. Click Install to start the installation. The installation starts.
5. Click Exit to complete the installation.

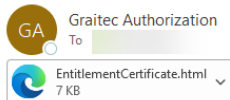

Exit the installation

1.4 Activation

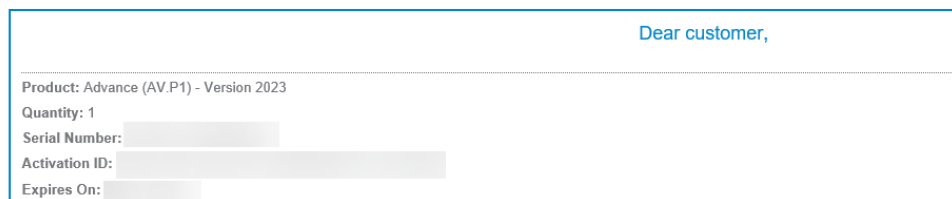

Note: This Quick Installation Guide deals with a standalone license, for Information on the network licensing please consult the Full installation guide (link at the end of the Document).

First, make sure you have your Serial number and Activation code; The Serial Number and Activation E-mail should be coming from: Graitec.Authorization@graitec.com

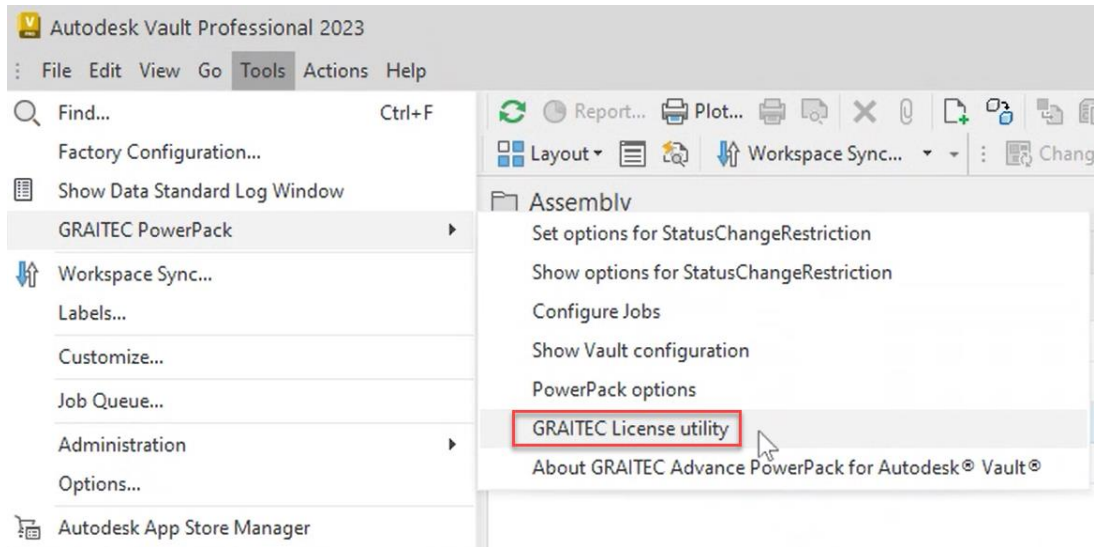

GRAITEC - Entitlement certificate

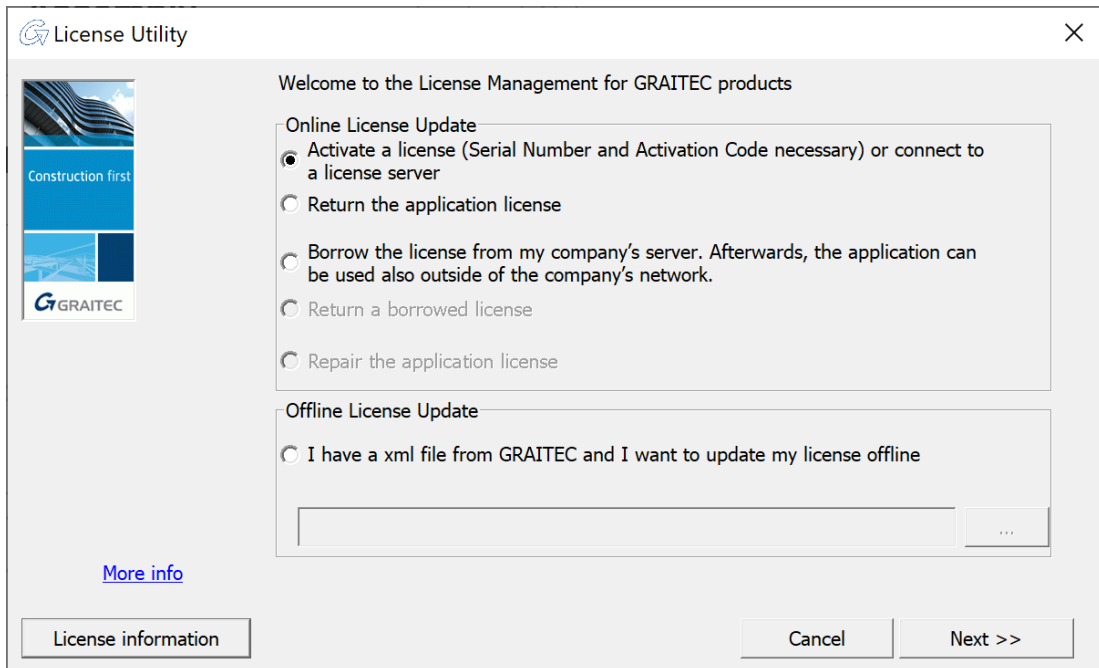

This e-mail has been automatically sent by a server. Please, do not reply to this e-mail.
For any assistance, please contact your local Graitec representative or your authorized reseller.

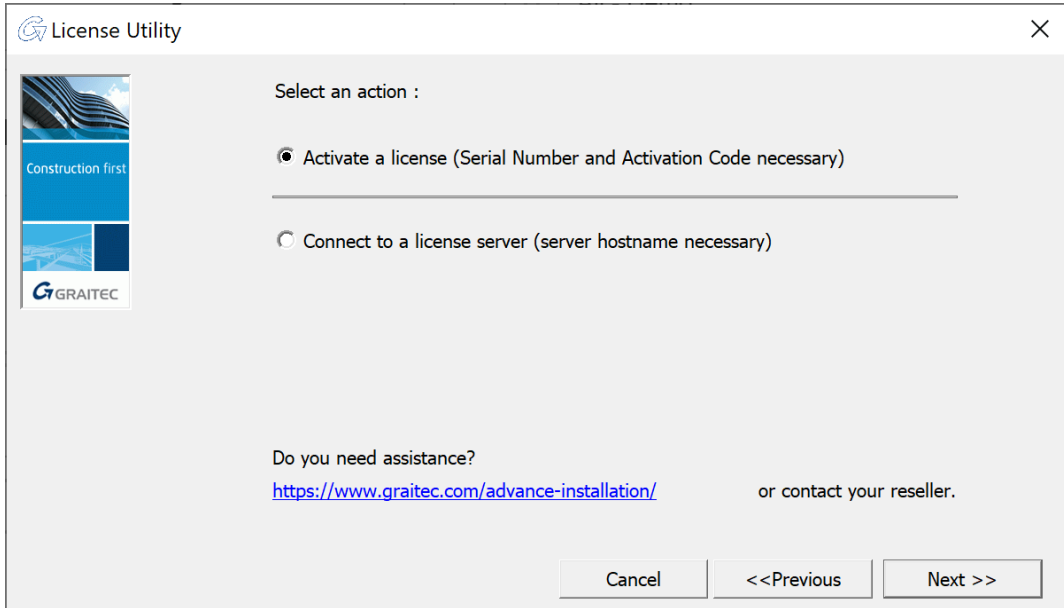

Next in the product, select the License Utility.

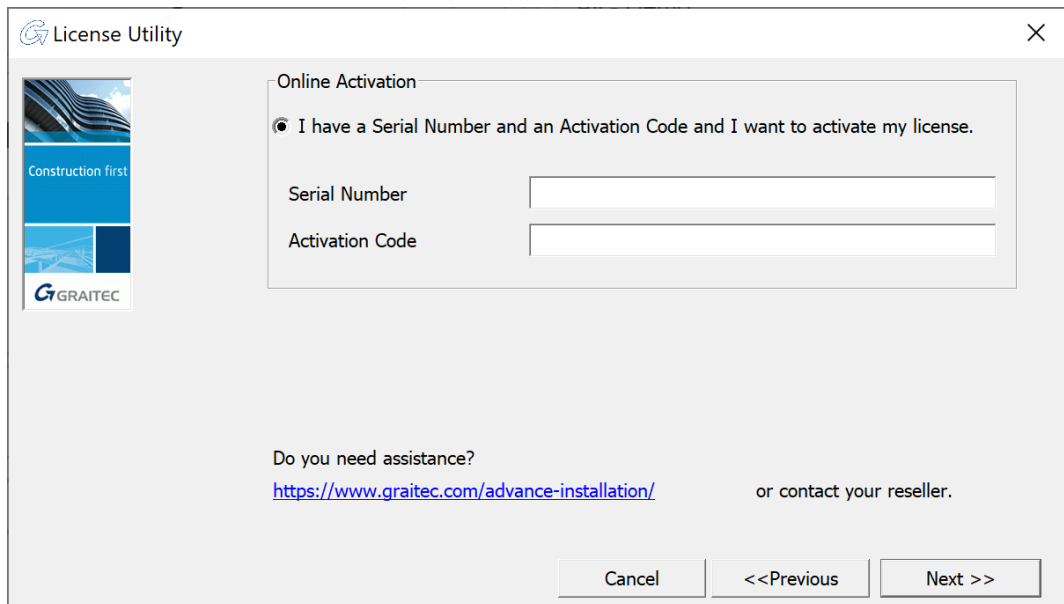

In the next dialog box select that you want to “**Activate a License**”.

In this case, you want to activate using the serial number and Activation code provided. So, select “**Activate a License**”, then click **Next**.

On the next screen fill in your Serial Number and Activation Code, then select **Next**.

Note: Once you enter the code and click next it will simply close out if it was successful.

For more information or error checking, please see the Full Installation guide that can be found here: [Download Documentation · Graitec Advantage](#)

Look for Installation Guide XXXX (where XXXX is the year, so 2022, 2023, etc.)
